—An exchange makes this suggestion for business men: "In all towns where a newspaper is published, every business man ought to advertise in it, even if it is nothing more than a card stating his name and the kind of business he is engaged in. It helps sustain a paper and lets the people out at a distance know that the town is full of business men. The paper finds its way into thousands of places where hand-bills cannot reach. A card in a paper is a traveling sign-board, and can be seen by every reader. Think of these and let your light shine."
